## Homework Solutions

Chapter 11 - Page 676

## Exercise 4

Number the dogs 1 to 10 in the order in which they are listed. Set the seed to 22 and then enter randInt $(1,10)$ and press ENTER 5 times to select 5 dogs from the 10. You should get the numbers $5,9,10,4$, and 2 . So, the first group will consist of Libby, Maggie, Klaus, Johnny, and Sparky. The second group will consist of the 5 remaining dogs: Lilly, Jasmin, Peetey, Wrinkles, and Spot.
